

Through your network participation with GEHA Connection Dental Network, you are considered in network with HRI Dental (previously known as Paramount Dental). HRI Dental works directly with Select Health and administers the Dental plan for their Medicare Advantage members.

We are reaching out to inform you of an important change to Select Health dental benefits in 2025. The only plan that will continue offering implant coverage in 2025 is Select Medicare Essential plan in Nevada (Paramount/HRI group ID G00D0022NV12; Select group ID G00D0026). All other Select Medicare plans will discontinue implant coverage as of 1/1/25.

Due to the confusion of their health and dental plan names in 2024, Select Health has also removed the HMO from their dental plan names. The Medicare Advantage dental plans utilize preferred provider networks.

Please feel free to reach out to HRI Dental at 1-833-203-1176 with any questions you may have regarding the changes for 2025.
